Construction has started on a 150MW solar and 600MWh battery energy storage facility in Do#241;a Ana County, New Mexico, US, following a financial close by developer D.E. ...

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development. The list is ...

As the renewable energy landscape continues to evolve, two significant projects are taking shape, poised to commence operations in the first half of 2026.

The project will be delivered in stages, with initial construction expected to begin in late 2026 and full buildout of solar and battery facilities planned for 2027 and 2028. Officials at ...

The company broke ground on three battery energy storage systems (BESS) in Texas, bringing RWE"s total battery storage projects under construction to 931 megawatts ...

From California to New England, construction of solar energy is picking up speed, showing promise for hitting sustainability goals. In ...

The project includes a 1,150-megawatt (MW) solar facility with approximately 3.1 million panels and up to 1,150 MW (4,600 megawatt-hours) of battery storage - enough to ...

Here are the planned battery projects in the US expected to come online in the next 18 months. These projects are currently under development or construction and represent the near-term ...
