AES just completed the first half of Bellefield, which will become the largest solar + storage facility in the US. The 1,000-megawatt (MW) Bellefield 1 project in Kern County, ...

Sheep graze among the panels at the Sherco Solar power plant in Minnesota, which is slated for a major solar plus storage expansion.

Desert Bloom Storage, a robust battery energy storage system with a capacity of 600 MWh, and the 150 MW AC Papago Solar power plant are both under construction, ...

The facility will serve as a large-scale battery energy storage system capable of charging from, and discharging into, the New York power grid. When fully functional, the ...

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development.

More than 80 battery peakers with power storage capacities of at least 100 MW are under construction, the largest of which is AES Corp.'s 700-MW Rexford 1 Battery Storage ...

In 2025, capacity growth from battery storage could set a record as we expect 18.2 GW of utility-scale battery storage to be added to the grid. U.S. battery storage already achieved record ...

At 640 MWdc, Roseland will be Enel Green Power's largest solar plant in the US and Canada, and will be paired with a 59 MWdc battery storage ...
