Where is solvis solar PV module manufacturer located?

PV module manufacturer located in Croatia,EU. Mission of SOLVIS d.o.o. is for people who want to provide electricity from sun energy in an environmentally friendly way without environmental pollution.

What is a solar distributor?

Solar distributors assist solar manufacturing companies by storing, handling and shipping their solar products to their buyers. On the other hand, they help solar contractor companies in outsourcing high-quality solar products.

What is a string inverter?

String inverters are standard centralized inverters. Usually, a majority of small solar systems use string inverters or "centralized" inverters. In a solar PV system that comes with a string inverter, all the solar panels are connected together into "strings."

What are the different types of solar inverters?

There are mainly three types of solar inverters -- string inverters, micro-inverters, and power optimizers. All these inverters have a different system. However, they have the same function, which is collecting DC power from batteries and convert into AC, though with different levels of efficiency.
