The meaning of SOLID is being without an internal cavity. How to use solid in a sentence.

A solid is one of the fundamental states of matter, along with liquid and gas. It comprises particles such as atoms, ions, or molecules, packed closely together and held in fixed positions by ...

Because its particles are packed close together, a solid is rigid, doesn't flow, and isn't easily compressed. A solid is defined as a state of matter with a definite shape and volume.

A solid is a substance that stays the same shape whether it is in a container or not. Solids turn to liquids at certain temperatures.

SOLID definition: 1. hard or firm, keeping a clear shape: 2. completely hard or firm all through an object, or....  
Learn more.

Solids exhibit certain characteristics that distinguish them from liquids and gases. All solids have, for example, the ability to resist forces applied either perpendicular or parallel ...
