Who makes SolarBridge microinverters?

However, in the autumn of 2014, SolarBridge was acquired by SunPower Corporation, which is one of the largest solar panel manufacturers in the United States. Because of this, SolarBridge's microinverters are usually paired with SunPower solar panels.

What is a SolarBridge Pantheon microinverter?

The SolarBridge Pantheon microinverter is mounted directly on the solar panel to create a roof-ready AC module. Additionally, this product has passed all tests required under the Underwriters Laboratories 1741 safety standard, as certified by the Canadian Standards Association (CSA).

Who is SolarBridge Technologies?

Based in Austin, Texas, SolarBridge Technologies is a manufacturer and provider of solar microinverters and solar inverters for photovoltaic arrays. The company was established in 2004 with a goal to bring to market power electronics technologies that were created at the University of Illinois.

What is the global solar microinverter market value?

The global solar microinverter market reached a value of US\$231 Million in 2021. Solar microinverters refer to electronic devices used in photovoltaics to convert the direct current (DC) generated by solar panels into alternating current (AC).

Even better, there are a lot of these manufacturers and wholesalers, so you won't run out of options for your business. You can ...
