Currently Proinsener has installed inverter stations under very demanding environmental conditions, which allowed us to develop solutions for the best manufacturers of power ...

Our service includes battery commissioning, BMS setup, lifecycle testing, and remote monitoring. We offer maintenance plans and warranty support to ensure predictable discharge, grid ...

By utilizing IoT characteristics, we propose a dual-layer modeling algorithm that maximizes carbon efficiency and return on investment while ensuring service quality.

Our system features a smart inverters with remote monitoring capabilities, allowing users to track performance and optimize usage from anywhere. Remote construction crews ...

It combines solar PV, battery storage, inverters, and energy management in a rugged container. Ideal for autonomous energy supply wherever grid access is unavailable or undesired.

Our products are engineered and manufactured in the UK, ready to generate and provide electrical power at the client's premises anywhere in the world. Access to a parts supply chain ...

Our system features a smart inverters with remote monitoring capabilities, allowing users to track performance and optimize usage from ...

ConSOL is a mobile, solar-powered generator. It runs on PV panels that extend from its container's roof. Energy is stored in Lithium or Gel batteries. As a self-contained, self ...
