The semantic trickiness here is that so many terms for something that is whole use un- or in- and a word meaning divided in order to convey what you mean. Unsplit, indivisible, ...

The Econo 500W Solar Street Light is a high-efficiency light that is capable of lighting up larger areas, such as stadiums, gardens, pathways, and parking lots. With built-in solar panels, the ...

500W Solar Lamp, Outdoor Courtyard Split Street Lamp \$36.80 USD

Feature highlights: This 500W Split Solar Flood Light features SMD2835 high-efficiency LED chips, offering professional-grade brightness ideal for large spaces and security lighting. With ...

This lens combines two lenses with different beam angles ...

What should be used in below sentence: "split" or "split up", and why? We need to split up the background image of the website into two parts.

Built to withstand the toughest conditions, this all-in-one solar lamp is self-contained, easy to install, and completely independent of the grid, making it the ideal choice for both residential ...

Does the "in" imply multiplication, in which case split in half is correct, or is it division? It sounds like the latter to me, but I've heard it used both ways.
