How can a cross-continent pipeline help Mena develop a hydrogen market?

Cross-continent pipelines, repurposed or new, are of strategic importance to developing the hydrogen market. Initiatives such as ZETA5 can help MENA to develop a transparent market for liquid low-emission products in the region, while effectively interacting with the emerging net-zero world markets.

Does Egypt have the biggest gap between announced hydrogen projects and concrete progress?

Egypt is currently leading the way with 29 announced hydrogen projects, largely driven by a series of Memoranda of Understanding (MoUs) signed during COP27 in Sharm El Sheikh in 2022. At the same time, looking at concrete progress since then, Egypt might have the biggest gap between announced projects and concrete progress.

How many green hydrogen projects are there in Oman?

Green hydrogen developments (Table 13) in Oman are being orchestrated by Hydrom, with an initial aim of meeting a production target of 1-1.25 Mtpa of green hydrogen by 2030/26. Through two rounds of auctions, Hydrom has awarded eight projects: five in the Duqm area and three in Salalah.

The MENA region is starting to witness a drastic increase in large-scale battery energy storage systems ("BESS") projects, ...

Speakers will examine various storage technologies, from long-duration batteries to advanced grid-scale solutions, and discuss the role they play in stabilizing energy grids and supporting ...
