What type of plug does Uzbekistan use?

The country uses two different plug types: C and F. Plug type C is the plug which has two round pins and plug type F is the plug which has two round pins with two earth clips on the side. These plug types are common in many European countries,so if you have a device with a European plug,you should be able to use it in Uzbekistan.

What voltage does Uzbekistan use?

Uzbekistan uses a standard voltage of 220 voltsand a frequency of 50 Hz. The country uses two different plug types: C and F. Plug type C is the plug which has two round pins and plug type F is the plug which has two round pins with two earth clips on the side.

How does a travel adapter work in Uzbekistan?

This travel adapter is designed to power multiple devices simultaneously,thanks to its multiple USB ports and a standard socket. This makes it perfect for charging your phone,laptop,tablet,camera,and more,ensuring all your essential electronics are ready for use in Uzbekistan and beyond.

Do I need a voltage converter or transformer in Uzbekistan?

Uzbekistan uses a 220-volt electrical system,which is different from the 110-120 volts used in many countries. You will need a voltage converter or transformer if your electronic devices are designed for a different voltage. Check the voltage requirements of your devices before your trip to determine if you need a converter or transformer.
