How can Vanuatu improve energy security?

In Vanuatu there are resources to support hydro-, wind-, solar-, and geothermal-based electricity generation, which could reduce the reliance on imported diesel. In addition to improving energy security, this would contribute to a more sustainable energy supply. [...].

Does Vanuatu have a national energy policy framework?

Currently, there is no National Energy Policy Framework that guides and directs energy sector development in Vanuatu. Energy sector planning appears to be focusing only on the supply of electricity in urban centres through UNELCO and the importation of petroleum fuels.

How can Vanuatu be sustainable?

To be sustainable, and to achieve the overall NERM vision, Vanuatu's energy supply and energy infrastructure must be safe for humans and the environment. They must also promote Vanuatu's broader social and environmental objectives as set out in the NSDP.

Why is Vanuatu developing alternative fuels for generating electricity?

This growth is encouraging as it provides confidence that Vanuatu is developing alternatives to diesel for generating electricity. This will reduce reliance on a single fuel (and the related risks to affordability) as well as achieve renewable energy targets for sustainability purposes.

More specifically, it has calculated the least-cost configuration of the energy transition under different technology choice scenarios related to storage, dispatchable power, ...

The main goal of this assignment is to address the need for an energy efficiency policy and regulatory framework to enhance and upscale energy efficiency in Vanuatu.

These resources offer considerable potential to provide Vanuatu with a diverse energy supply sources and reduce its dependence on imported fossil fuels. However, the challenge is how to ...

The collaboration between the Government of Vanuatu, GGGI as well as the Pacific NDC Hub is expected to deliver the finalised Vanuatu NDC On-Grid Electricity ...

This transformation marks a significant stride toward not only closing the energy gap in Vanuatu but also setting a sustainable example for similar communities worldwide.
