What does solar Victoria do?

Solar Victoria is responsible for the delivery of the Victorian Government's Solar Homes Program and provides information for industry and the general public about this and other solar programs. WorkSafe Victoria provide guidance and assistance to ensure all employers and employees have a safe work place in the electrical and solar industry.

When will solar Victoria become a mandatory requirement?

This was one of five mandatory requirements Solar Victoria outlined in their annual notice to market on May 2023, to be implemented by March 1st 2024. Victoria joins early adopters South Australia (SAPN) and Queensland (Energex and Ergon networks), who began progressively rolling out dynamic or flexible export options in the second half of 2023.

Which solar inverters are eligible for a solar rebate?

This mandatory requirement will take effect from 1st March 2024. To be eligible for a solar panel (PV) rebate under the Solar Homes and Solar for Business programs, consumers must choose from the Solar Victoria inverters product lists such as Enphase IQ7, Fimer PVS&UNO, Fronius Primo&Symo and GoodWe SMT series&XS.

Do solar PV inverters comply with CSIP-aus standards?

Solar PV inverters must now comply with both IEEE 2030.5-2018 and Common Smart Inverter Profile (CSIP)-AUS standards in order to be eligible for the solar PV rebate streams (refer to section 4.2.1). This mandatory requirement will take effect from 1st March 2024.

The Solar Victoria Notice to Market 2023-24 is a significant development in the realm of renewable energy. Released by the Victorian Government, this notice serves as a ...

These new topologies provide designers of next generation PV inverter systems with solutions to address the critical design requirements of high efficiency, maximum power density, low ...

The 185 MW / 370 MWh Koorangie battery energy storage project in northwest Victoria has reached a major milestone with ...

Spanish inverter manufacturer Ingeteam has signed a supply agreement for Enel Green Power Australia's 93MW Girgarre solar farm. ...
