What is the New York battery & energy storage technology consortium?

The New York Battery and Energy Storage Technology (NY-BEST(TM)) Consortium, established in 2010, serves as an expert resource for energy storage-related companies and organizations looking to grow their business in New York State.

What is a battery energy storage system?

What are BESS? BESS, or Battery Energy Storage Systems, are systems that store energy in batteries for later use. These systems consist of a battery bank, power conversion equipment, and control systems that work together to store energy from various sources such as solar panels, wind turbines, or the grid.

Why is energy storage important?

To achieve New York's climate goals, it's clear energy storage will play an important role in the electric grid & transportation system of the future. We work to ensure that markets are developed fairly & with an eye towards enabling a clean energy future. Discover more about our history, mission, leadership, and more.
