Remember when "energy storage" meant stacking car batteries in your cousin's garage? Honduras is playing in the big leagues now. The Amaratoca substation project uses ...

Lithium-ion batteries dominate both EV and storage applications, and chemistries can be adapted to mineral availability and price, demonstrated by the market share for lithium iron phosphate ...

Our lithium-based energy storage systems are specifically built for hot, humid environments like Honduras. This article explores how we're tackling the unique climate ...

Our lithium-based energy storage systems are specifically built for hot, humid environments like Honduras. This article explores how ...

Next-generation battery management systems maintain optimal operating conditions with 45% less energy consumption, extending battery lifespan to 20+ years. Standardized plug-and-play ...

DynaFlex BESS uses UL9540A lithium-ion batteries to provide utility-scale energy storage for mission-critical businesses that can be used as an always-on power supply.

The market saw an increase in imports of battery energy storage systems from various countries, reflecting a growing demand for energy storage ...

The public event marked the opening of bids for the energy storage procurement, called LPI-001-ENEE-UEPER-2024, for the "Supply, installation, testing and commissioning of ...
