In this post, we explain why your Ring Alarm Base Station may go offline and what you can do to get it back online. If that sounds like what you're looking for, let's head right into it.

Make sure that the Ring Alarm Base Station is plugged in and has power. If possible, move your Ring Alarm Base Station to an elevated, central, and ...

It will remain in this state until power is restored or until the battery runs out. If you also lose your wifi signal, your Base Station will go into Cellular Backup until wifi is restored.

Power levels matter so be sure to enter the external attenuation value into the BTS Master and use full power on the BTS. For the most accurate testing, use a test signal as defined in the ...

This guide will help the expert on how to troubleshoot Arlo SmartHub or Base Station is offline

What if I lose power for more than 24 hours? Though we recommend contacting support if you need to change the batteries in your Base Station, if your power outage lasts longer than 24 ...

As stated earlier, if your Base Station isn't coming on, you can try resetting or power cycling it (Steps to do this are outlined in section 3 of this article).

Check the Power Supply: First, make sure the power adapter is properly plugged into both the base station and the power outlet. Try using a different power outlet to rule out any issues with ...
