Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Stealth Power provides fleet electrification and off grid solar solutions for customers of all kinds. They have explored and implemented solar options for a wide variety of applications and we ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

This 20ft collapsible container solution features 60kW solar capacity and 215kWh battery storage. Built with robust 480W modules, it powers extended off-grid missions, from microgrids to rural ...

Our foldable solar containers combine advanced photovoltaic technology with modular container design, delivering rapid-deployment, off-grid renewable energy with industry-leading efficiency.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Transform shipping containers into battery energy storage systems (BESS). These containers can house batteries for storing excess energy generated from renewable sources such as solar or ...
